

Conferinta PRIA Agricultură și Gala PRIA destinată Fermierilor Români din Transilvania

8 mai 2019

Grand Hotel Napoca, sala Viena

Parteneri

Parteneri media

Romanian Farmers from Transilvania will be awarded during [PRIA Agriculture Conference & Gala PRIA Romanian Farmers](#) that will take place on May 8th 2019, at Grand Hotel Napoca, room Viena, starting with 9.30.

[PRIA Agriculture Conference & Gala PRIA Romanian Farmers from Transilvania](#) is one of the most important events for agriculture and represents a real platform of debate between farmers, associations, central and local authorities. During PRIA – Romanian Farmers Awards Gala, we will recognize the efforts and the contribution of Romanian farmers who have invested financial resources, hard work and experience over time, contributed to the development or maintenance of Romanian agriculture to have a good place in the EU. We will recognize the efforts and the contribution of the Romanian farmers that invested Romanian capital, time, labor, knowledge and energy to Romanian agriculture – crucial engine of the Romanian economy. We will also recognize the merits of researchers and those who have helped maintain our agriculture.

Agriculture is vital for the whole world. EU allocates a big budget and a special attention for this sector. This is why the Common Agricultural Policy consolidates the competitiveness and sustainability for the agriculture in EU by granting direct payments of farmers, market measures and financing programs for the development of rural areas in the Union.

Because the agricultural sector is extremely important and because the Romanian farmers have done much for Romania's agriculture, at the PRIA Agriculture conference we will award and applaud the activity, the energy, the work done and the patience of them. We will also find out what challenges they are facing and why they need to grow their businesses, but also what their success stories are

At the second edition in Romania, through PRIA Gala Romanian Farmers, we will highlight and make people aware of the role of Romanian farmers in the development of agriculture in our country.

Agriculture is vital for the whole world. EU allocates a big budget and a special attention for this sector. This is why the Common Agricultural Policy consolidates the competitiveness and sustainability for the agriculture in EU by granting direct payments of farmers, market measures and financing programs for the development of rural areas in the Union.

Because the agricultural sector is extremely important and because the Romanian farmers have done much for Romania's agriculture, during PRIA Agriculture conference we will award and applaud the activity, the energy, the work done and the patience of them. We will also find out what challenges they are facing and why they need to grow their businesses, but also what their success stories are.

Through [PRIA Gala Romanian Farmers from Transilvania](#), we will highlight and make people aware of the role and role of Romanian farmers in the development of agriculture in our country.

Romania's potential in the agricultural sector is very high and there is still room for growth. Below we will see problems that we face, but also solutions or suggestions for an essential growth of Romanian agriculture.

It is very important to see how we can benefit from the CAP after 2020, how we attract more European funds, how we have good, constant results and sustainability, how we grow Romania's agriculture.

Among the themes that will be addressed will be how and how will the Common Agricultural Policy show after 2020? How do we increase the absorption of European funds? How can banks, leasing companies and guarantee funds help increase the absorption of EU funds? What is the role of investment funds for agriculture? The work of the AFIR and APIA agencies, which play an essential role in the implementation of the Common Agricultural Policy. What steps will be taken this year? What amounts are allocated to each one? National cadastre. How should land fund law look like? Since when will the identification and delimitation of all mandatory agricultural parcels be based on cadastral data? What should be changed to the law that liberalized the land market?

The Law of Food Waste. How will she apply in Romania? What do the authorities say? But all the other parties involved? How the chain works between producers, processors and retailers

What do farmers or co-operatives have to consider when they think of establishing partnerships with commercial networks? The importance of Romanian products in the retailers' strategy. What should local network partners know to have as many products as possible on the shelf? How can I have a long and fruitful collaboration?

Supporting investments to increase the competitiveness of agricultural holdings, livestock farms, fruit and vegetables or grasslands and pastures? Diversifying production, increasing the quality of the products obtained and improving the overall performance of agricultural holdings; expansion at national or international level Support for the installation of young farmers in agriculture; State aids in agriculture - who can benefit from them? What subsidies do Romanian farmers receive for Campaign 2020?

The invited lecturers are:

Emil BOC - Mayor of Cluj-Napoca

Istvan Valentin VAKAR - Vice President, Cluj County Council

Floricele DIMA - State Secretary, Ministry of Agriculture and Rural Development
